

Even if parents speak little or no English, they can help their children learn to speak, read, and understand English!

It's easy and fun using the *Family Fun-Pack* games and audio lessons. A CD is included along with every game in every Dual Language Edition Family Fun-Pack! Simply by listening and repeating aloud, the student's whole family can easily learn to understand, pronounce, and use all the English words, phrases, and sentences in each week's *Family Fun-Pack* game. No computer is needed. The audio CD lessons play on any standard music CD player! The game is self-checking!

Three levels of **Dual Language Family Fun-Packs** provide continuous progress and success for all. **Level R**, for 4-8 year olds who are getting ready to read, develops basic vocabulary, phonemic awareness, comprehension, listening skills and and specific math and reading skills. **Level P**, for beginning readers of any age, emphasizes easy phonetically regular words plus some sight words. It includes 600 illustrations to aid vocabulary acquisition and assure reading comprehension. **Level A**, for students of any age who read English independently at beginning second grade level, presents many sight words and words with special vowel sounds, and builds grammar and usage skills in addition to reading skills.
